# MAKES A NEW RULE

## Physicians Must Understand English.

(From Thursday's daily.)

Hereafter no physician who is unable to speak the English language will be given a certificate allowing him to prachis profession in the Hawaiian Territory. The resolution to that effect was adopted by the Board of Health yesterday only after an animated discussion between the lay and the medi-cal members, in which the former insisted that a knowledge of the English language was not a necessary adjunct to the learning of a medical practition-The physicians were in the majority at the meeting, however, and the new rule, providing that examinations

English language was adopted by a vote of three to two. President Sloggett opened the discus-sion by stating that he had consulted with some of the members of the Medical Examiners and with Treasurer Wright and they were anxious to have the Board of Health take such steps as they wished, regarding the examina-tions in the English language. He did not believe it to be advisable to adopt the plan of employing an official in-terpreter because the ordinary layman

in the future may be held only in the

knew so very little of the technical terms employed by the medical frater-

Mr. Dole said that he did not approve of such a rule, as there were not more than one-tenth of the people in the Hawaiian Islands whose mother tongue was English. "It seems to me," said he, "that if an educated man can speak only Hawaiian, Japanese, Chinese or Portuguese, just because he is not competent to speak English, but is qualified as a medical man, is no reason why he should not be allowed to treat people

'But he doesn't remain among people of his own race," suggested Dr. Cooper. "I have thought the matter over since the last meeting," said Dr. Moore, "and I believe it is for the common good to compel every physician who wishes to practice in Hawaii in the future to have an understanding of the English lan-

guage."
"There are forty thousand Japanese here," retorted the Attorney General, "and you want to say that skilled practitioners can't attend them, simply be-cause they do not understand English."

"Nine-tenths of these Japanese physi-

doesn't understand our lan-

before he is allowed a license to prac-

er," replied Mr. Dole.

'All that is desired is that the applicant for a certificate have a sufficient knowledge of English to undertake the examination," said Dr. Cooper.

At this juncture Dr. Moore moved for a reconsideration of the motion adopted at the last meeting, in which the Board of Medical Examiners was authorized to employ an official interpreter, and by a vote of three to two that motion was stricken from records Drs. Sloggett, Moore and Cooper, voting in favo, of the proposition, and Mott-Smith and Dole voting "no."

By the same vote a resolution was adopted instructing the Board of Mediin the future all physicians applying for admission to practice in the Territory must pass such examination. The various foreign consuls are to be notified of this action on the part of the Board of Health.

#### CORONATION JEWELRY.

#### Mrs. Bradley Martin's Tiara Will Cost £250,000.

LONDON. Nov. 16 .- Preparations for King Edward's coronation are already taking definite and costly shape. Mrs. Bradley Martin is having a tlara made in Paris, it is rumored, at a cost of £250,00. It is a replica of the diadem which shone on the head of Empress Josephine. Queen Alexandra, not to be outdone by the resident American, is having the Kohinoor diamond set in her new crown. The inclusion of this stone will make her crown the most valuable in the world, a distinction now held by the King of Portugal. Pecresses are trying to outvie each other in the brilliancy of the tiaras. Lady Kilmorey, one of the most beautiful women in London, the wife of the Earl of Kilmorey, who was a boyhood friend of the King: Lady Londonderry, the Duchess of Devonshire and the Duchess of Portland are all said to be spending vast sums in order to cele coronation by a display of lewels worthy of the occasion.

It is reported that King Edward, at the coronation, will confer the semi-royal title of Duke of Inverness on the Duke Fife, son-in-law of His Majesty.

## WHAT THEY ATE THANKSGIVING DAY.

#### ANOTHER DENSE FOG.

#### of a Week of Abnormal Weather in England.

LONDON, Nov. 16 .- From 12 to 20 de grees of frost, unprecedented at this time of the year, and a dense fog in most parts of the country, are winding up a week notable for its abnormal weather, and are adding to the long list of casualties occasioned by the recent "Nine-tenths of these Japanese physicians can speak the English language and the rule would not affect them," replied Dr. Cooper.
"I don't see why we should bar anyone who is an able physician from practicing his profession, simply better the profession of the second of the profession still, and several accidents preceded the stoppage. The fog in South London is so guage. It isn't giving them a fair stoppage. The fog in South London is so dense that road traffic is almost impracticable. Omnibus passengers have been forced to leave the vehicles and walk. Notwithstanding the density of the fog. guage of the people he seeks to treat. the Automobile Club turned out in force before he is allowed a license to prac-for its annual spin today. Hundreds of tice," suggested Dr. Sloggett.

"I don't believe a qualification as to knowledge of English has anything to The Channel steamers are greatly delaydo with skill as a medical practition-ed by the fog. There was skating today in some parts of the kingdom.

The fog in Liverpool is so dense that cross-river traffic was almost suspended. Sailings were postponed, and arriving vessels anchored outside the Mersey. Football matches in many parts of the kingdom have been abandoned on account of the fog.

Sixty overdue ships arrived at Shields

today. Many of them were in a dilapi-dated condition, owing to the storm. Wreckage continues to wash ashore.

### CHINESE CANNOT PROCEED.

#### Decision in Case of Those at San Francisco en Route to Mexico

recently arrived at San Francisco en route to Mexico, and who were refused permission to proceed by the immithat the solicitor of the Treasury has held that there is no appeal to the department in such cases, and, therefore, his adverse action will stand. The now before now before the courts. The department has taken a firm stand against permitting Chinamen to cross the United States into Mexico, as inves-tigation has disclosed the fact that nearly all of them recross the border into this country. The long border line makes it almost impossible to patrol the territory so as to prevent this, and officials propose to see what any purpose whatever.

#### A MYSTERIOUS MEETING.

#### German Steamship Directors Confer at Berlin. BERLIN, Nov. 16.-Much mystery pre

ails here regarding the meeting of the directors of the ocean steamship com panies at the Hotel Bristol last evening. The meeting was apparently unexpected ly called. Herr Ballin, director of the Hamburg-American Line, and Herr Plathe, president of the North German Lloyd, came first and were received by the Emperor, and then the other direc-

tors and secretaries were summoned.

The Kleine Journal says the ocean companies' directors have held conferences and discussed ways and means of preventing the increase of American influence over German lines. The adds that New York capitalists purchased several million marks of shares in the Hamburg-American Line during the past few weeks. The pur-chase by a New York life insurance company of over 5,000,000 marks of the North German Lloyd Company's obligaions the Kleine Journal considers unjustified, since this purchase does not affect the shares.

The Tageblatt today prints an official denial from the North German Lloyd Boers to conduct an aggressive cam-Company that this company has sold ob-ligations to the New York insurance columns are mainly engaged in marking

# DOCK WORK

## Compromise of Differences in Sight.

Unless a compromise is effected bere the hearing, there promises to be a lively fight over the application of the Oahu Railway & Land Co. for a permanent injunction against the Territory to prevent the building of the approach to the new Hackfeld wharf at the Ewa end of the harbor. The two parties at interest have made proposals and coun-ter proposals and it is said are getting closer together.

It is believed the compromise will in-volve the use of the approach for a time and then its being torn away and the substitution of an approach from the Ewa end of the harbor. This was contemplated in the original plan when-ever there should be any use for the upper end of the slip. The present approach is some 200 feet long and the decision of the court will mean that 160 feet of the approach is to be torn out. The forty feet at shore is to be left as it will become a part of the pro-posed sea wall wharf which will be constructed from Emmes wharf to the mouth of the creek.

The determination to use the approach from the point finally selected for it was due in part to a desire to make the wharf entirely safe should there be a crusade against rats. The plan of Assistant Campbell was to place in the approach a draw bridge which would be raised to prevent any of the vermin from passing from the wharf. The piles at the approach are sixteen feet on centers, so that in the event of a necessity for the extreme width thirty-two feet clear passage could be secured. With the approach from the Iwilei road there will be no possibility of this plan being successful as the ground is dry at low tide.

Should there be no compromise reach ed which will permit the use of the present approach a pontoon bridge for the transportation of material will put in place, which may be opened in the event of any vessel desiring to pass through. This will permit the rushing forward of the work on the new wharf as at present contemplated by the dereport of Commissioner-General Powder. partment. The piles used in the ap proach have been sheathed and copper

on the approach from the Ewa end. There is a question which may yet arise in the case as to the true har bor lines as there are some discrepan-cies in the matter of the hydrographic The work on the new wharf will not be delayed.

#### RECEPTION TO CHOATE.

#### The Ambassador and Carnegie Were the Principal Speakers.

between England and America, and the desirability of its continuance. Choate expressed it in saying that whatever differences came up between the two countries would be harmoniously, honorably and amicably adjusted.

"After all that I have seen in other countries, it seems to me absolutely clear that the cardinal principle upon which American institutions rest-the absolute political equality of all citizens, with universal suffrage is the secret of American success. Introduced by the comprehensive system of education, which enables every citizen to pursue his calling and exercise the franchises, it puts the country on that plane of success which it has reached. It passes my comprehension how any man can go abroad and not return a warmer lover of the institutions of his native land."

Andrew Carnegie followed Mr. Choate. and referred to the way he came to be quoted as saying New York was "one of the best-governed cities in the world," a remark that was brought up in the recent municipal campaign. A gentleman reproached him for giving so much money to so foul a city as New York. Mr. Carnegie rejoined:

"Look at your London, buying its wa ter from companies whose shares weroriginally £1, and now are £2,100. Look how New York prepares for the future in the matter of parks. It takes a head to do that. I don't care what party is in power; New York's progress is not to be impeded.

#### Dewet's Unsuccessful Reappearance. NEW YORK, Nov. 16.-The London coresponden; of the Tribune comments the military movements in South Africa

"Dewet has made an unsuccessful reappearance. His attack on the rear of Colonel Byng's column in the north of Orange River Colony was successfully repulsed without much loss to either side, and Lord Kitchener seems proud of the fact, although the Boer general had only 400 men with him. Official dispatches af-ford evidence of the determination of the

Yee Soy, when questioned as to found a most heterogeneous collection of articles.

## **EXPERT** ON THE

Dr. J. J. Kinyoun, of the United A number of sake-soaked Japs came States quarantine service, who has near precipitating a riot last night in spent the past four months in the that aristocratic section of Kakaako fourney was made upon a commission to prepare a report on the disease and its peculiarities, from Surgeon General

In pursuance of his orders Dr. Kin-Kamiloloa-mauka—3.749 acres; American Sugar Company; \$200; May 14, 1919; dry grazing land.

Makakupaia—1.216 acres, and Kahananui—Dry grazing lands.
Wailau—2.000 acres; deep valley and rough mountain tract.
Ualapue—709 acres; H. R. Hitchcock and Otto Meyer; \$210; September 3, 1919, and youn has proceeded through the coast tions and visiting friends in the service. Owing to the fact that he has

for the visitor. Early he was taken for a drive to Pali by Dr. Cofer, and later spent the afternoon in inspecting the harbor and the various phases of the work of the service here. At the Kinyoun expressed himself as very through with people, who had swarmed the pleased with the work which has been done here by Dr. Cofer, saying rious riot was in progress.

About 19:30 o'clock the sand lot was Mr. Kinney, that all the allegations of the petition were admitted by the respondent excepting that relating to the value of the condemnal land is one of the most thorough and real.

Nippon Maru inspected. Then the two officials took the launch and visited the ships about the harbor and the Railroad wharf. The plans for keeping the rats from the wharf were carefully looked over by Dr. Kinyoun whose durats from the wharf were carefully looked over by Dr. Kinyoun, whose du-ties in the East brought him into conkilling, and pronounced as being as nearly perfection as could be attained. of any rats which might get upon the dock were superior, in his opinion, and he said that he thought the dock could be made entirely free from the

The ship W. H. Marston, which had only recently been fumigated, was next visited, and the visitor was given a chance to investigate the thoroughness with which the work was done. The hold was looked into, but the fumes were so strong that no careful investigation could be made, nor any search for the rats which might be in the ship. Above the dunnage of the sailors, as if wedged in in an endeavor to escape were found two rats, dead from the effects of sulphur gases. From this it was argued that there were others in the ship, and that all had met the fate

of those discovered. Dr. Kinyoun later met many of the professional men of the city, and was greatly interested in the fight which is Would you experiment on it?
You will read of many so-called to be made upon the rats which infest the waterfront. During various conversations he explained that the killing of the rats was considered as of the very first moment in the Orient when an attempt was made to keep a cort clear from the plant. port clean from the plague. The plans which are to be adopted here meet with his approval, and he was of opin-

Home endorsement is the proof that backs every box of Doan's Backache Kidney Pills.

Mr. H. S. Swinton, of this city, says: "I was a long sufferer from backache, having been afflicted with it for twelve years. Taking this as a symptom of kidney trouble, and seeing Doan's Backache Kidney Pills advertised as being good for complaints such as mine, I procured some of them at the Hollister Drug Co.'s store. I found upon taking them that they were doing me good, and was thereby encouraged to keep on until now I am cured of the backache. The merits of Doan's Backache. Kidney Pills have been strikings been in my case, and I recommend y them to other sufferers."

Which are to be adopted here meet with his approval, and he was of opinion that the with his approval, and he was of opinion that the read a perfect rat quarantines, in the opinion of Dr. Kinyoun, are those maintained in Japan. The plans which chain there are similar to the general ones which are to be the rule here. In Japan, however, the authorities have greater power, and as a result there is a more perfect house to house compaint to the people of a town and kill, or compel them to kill, which is catchable. Polson, traps and stiles and poles are the usual weapons, and the vicilance of the people is such that it is believed that some of the shipping centers have been practically cleared of every rat which is believed that some of the shipping centers have been practically cleared of every rat which is believed that some of the shipping centers have been practically cleared of every rat which is believed that some of the shipping centers have been practically cleared of every rat which is the limits. The first have been practically cleared of every rat which is catchable. Polson, traps and stiles and poles are the usual weapons, and the vicilance of the people is such that it is believed that some of the shipping centers have been practically cleared of every rat force or order at the postoffice for payment, the post of the policy was of course detected, and

# nation Are Now Under Way.

(From Wednesday's daily.)

THE first of the Pearl Harbor condemnation suits is well under way. Yesterday the court heard the opening statements of counsel and the evidence of the first witness for the government, and then adjourned at noon until this morning, when court and jury will visit the site of the condemned Bishop Estate land in carrya alls, under the chaperonage of Marshal

Yesterday's proceedings were interesting from the fact that they practically disclosed the purpose of both par-ties to the suit. There was a little acrimonious debate between United States Attorney Dunne and Attorney Kinney for respondents over the statement made by the former, relative to the offer of compromise made by the Bishop Estate two years ago. The court however allowed the statement to be made, ruling, however, that an offer of compromise not accepted, could not be referred to in evidence.

At the opening of court yesterday morning Judge Estee heard arguments on a preliminary motion to decide which party was to occupy the position of plaintiff in the case. Mr. Dunne contended that the government should occupy that position, while Mr. Kinney presented argument to show that the party owning the land, and having to make a showing of evidence, was entitled to the opening and closing argument. Judge Estee held that the government was properly the plaintiff in this action, and Mr. Dunne consequently will be allowed the opening and clos-

At this juncture one of the jurors, who had been keeping the court waiting for fifteen minutes, appeared and Judge Estee promptly imposed a fine of twenty dollars for his tardiness. the same time he announced that in the Pearl Harbor cases the court would not be kept waiting. "Every juror and attorney and officer of the court must be here when court is opened, and no de-lay will be tolerated for any cause," said Judge Estee. At the noon recess Mr. Dunne asked that the fine be remitted, but the court refused to entertain the motion.

United States Attorney Dunne opened the case by reading the lengthy petition filed by the government. He said, and the statement was acquiesced in by

## Restraining Order For Hackfeld Wharf.

temporary injunction prayed for by the Oahu Railway & Land Company restraining Supt. Boyd and Cotton Broth- high rents may be there are but few ers from further work on the new houses, when every thing is taken into Hackfeld wharf approach. The hearing for a permanent injunction will come the money invested in this class of to do, and there are but few that acup Saturday morning, and in the mean- property. time the defendants are not permitted

He did not believe that the contracremoving them again-

Deputy Attorney General Catheart and A. G. M. Robertson appeared in behalf of Supt. Boyd and Cotton Bros. and filed affidavits from both of the defendants. The affidavit of Contractor Cotton differed from that of Mr. Boyd in that it related that the work was completed before he had been served with the notice of the suit.

Supt. Boyd in his affidavit alleges: TEMPORARY INJUNCTION.

Now comes James H. Boyd, Superintendent of Public Works for the Territory of Hawaii, and for cause why the temporary injunction prayed for by the said complainant should not be issued,

shows as follows: That he is the duly qualified and acting Superintendent of Public Works for the Territory of Hawaii; that sometime prior to the filing of the complaint here in his aforesaid official capacity, this defendant made arrangements with Cotton Brothers and Company, defendants herein, to erect a public wharf near the northern portion of the Harbor of Honolulu, near portion of the Harbor of Honolius, hear the property of the said Oahu Railway and Land Company, and within the har-bor line alleged to have been established by the Secretary of War; that according to the plans for said wharf the same was to have no connection with the shore for the immediate present, although it was the intention of this defendant to ultimately extend the same to the shore, connecting with a public road running along the property of said complainant; that said wharf has not yet been completed; that the early completion of said wharf is necessary for the accommoda-tion of the commerce of said harbor, and that it is the intention of this de-fendant to extend the same so as to con-nect with the shore at said public road as soon as possible after the completion of so much of said wharf as is necessary

for immediate use. That the bridge or wharf referred to in plaintiff's complaint is a temporary ap-proach leading from Queen street, a public highway, up to the line of the said proposed wharf, and is necessary for use in the convenient construction of said wharf as in the use of said wharf for commerce, pending connection of said

wharf with the shore aforesaid. That at the time plaintiff's complaint herein was filed this defendant was absent from Honolulu, being on the Island of Hawaii; that he returned to Honolulu on the morning of this 26th day of November, 1901. That the said bridge or ap-proach, the construction of which plaintiff seeks to enjoin, was substantially completed prior to this defendant's return to Honolulu, the same having been completed and ready for use for the pur-poses for which is was constructed. This defendant further shows that said

bridge or approach has been constructed over shallow water, about 300 feet distant from the line of complainant's property from the line of complainant's property, that the water intervening between complainant's said property and said bridge or approach is navigable only by small vessels such as scows and rowboats; that the navigation of Honolulu Harber undermeath and shorewards from said bridge or approach is not obstructed by the erection thereof inasmuch as the piles which support said approach are about fifteen feet apart, and therefore permit of the passage to and fro of such small craft; that the erection of such bridge or approach does not cause any obstruction to navigation in said harbor.

That said complainant has had and such has easy and clear access from its said land to said harbor for ocean going vestels as well as small craft, and said bridge or approach has no. caused and bridge or approach has no. caused and bridge or approach has no caused and such as a seasy and clear access from its said. The local Portuguese are making extensive preparations for the celebration of their independence day, and on Saturday evening will give a ball in the bridge or approach has no caused and bridge or approach has no That said complainant has had and still

petition for temporary injunction, and the defendants did not contest this very strenuously as the work which the injunction was to restrain has already been accompleted. It is thought that San Antonio Hall will be the most appropriate. It is expected that the whole Portuguese columns will turn out on masse to listen. been completed.

Secretary of War."

ball team:

in issuing the order stated that no one had a right to infringe on the harbor as delineated by the Secretary of War.

The work on the wharf proper will not be stopped because of the temporary injunction, as the suit has to do only with the building of the Queen of the stopped because of the temporary injunction, as the suit has to do only with the building of the Queen of the stopped beautiful that the stopped because of the temporary injunction, as the suit has to do only with the building of the Queen of the stopped beautiful that the stopped because of the temporary injunction, as the suit has to do only with the building of the Queen Charles:

I am writing to secretary of Honolulu Athletic Club to see if a way could not be found by which the Mauri boys can come down and play a game on the stopped because of the temporary injunction, as the suit has to do only with the building of the Queen charles. You are an enthusiast in sports, and you might give the scheme a push, which will be appreciated by your fellow Island friends. give you fellows a close rub, I predict, Yours sincerely, S. KELIINOI. Yours sincerely,

> JUMPED ON A TENPENNY NAIL. The little daughter of Mr. J. N. Pow ell jumped on an inverted rake made of tenpenny nails, and thrust one nail entirely through her foot, and a second one half way through. Chamberlain's one half way through. Chamberlain's Pain Balm was promptly applied, and five minutes later the pain had disappeared, and no more suffering was experienced. In three days the child was wearing her shoe as usual, and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va., U. S. A. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time returation and in one-third the time re-quired by the usual treatment. For sale by all druggists and dealers. Benson, Smith & Co., Ltd., agents for Hawaii Territory.

#### INTER-ISLAND MAIL. Hamakua People Complain of the

Postal Service. "There is no denial here that the wharf is within the lines deliminated by the Secretary of War," said Judge Estee. "If the Superintendent of Public Works has gone within those lines, there is nothing for the court to do but grant the injunction. As the court understands it, any obstruction within the harbor lines is a trespass, and no citizen can infringe upon the order of the court of the restoration of the Portuguese powhoe in place of Kawaihae, is undoubted to the restoration of the Portuguese powhoe in place of Kawaihae, is undoubted to the restoration of the Portuguese powhoe in place of Kawaihae, is undoubted to the restoration of the Portuguese powhoe in place of Kawaihae, is undoubted to the restoration of the Portuguese powhoe in place of Kawaihae, is undoubted to the restoration of the Portuguese have become and the United States, yet they look with pride to their mother country, and are ready to laud the heroes who fought for freedom nearly four centuries ago.

The history of the events leading up to the restoration of the Portuguese have become activities. HAMAKUA, Hawaii, Nov. 18, 1901.

HAMAKUA, Hawaii, Nov. 18, 1901. on the island, and in such weather as we having now it is impossible to make a landing, and in consequence last week's mail is lying there now; and if this weather keeps up is liable to

stop there indefinitely. But notwithstanding this fact the postal authorities for some unfathomable reason, will periodically make the change. We had hoped that under the more enlightened postal system of Uncle Sam we would have had a better service, not a worse one.

Yours truly. FREE LANCE.

## POSTAL SERVICE

(From Wednesday's daily.)

of Japan, accompanied by a high post office official and the department ar-chitect, were in the city yesterday, en route on the Nippon Maru from Japan to the Mainland, whence, after a leisurely tour of the States, they will leave for Europe. All three officials are on a tour of investigation of the postoffice methods in vogue in the United States and Europe. The tour will occupy several months, and their return to Japan will probably be signalized by improvements in the domestic and foreign postal service of that progressive empire.

Yesterday they were taken through the local postoffice by Chief Clerk Louis Kenake, and from the length of their stay, and the numerous ques-tions they asked while making the rounds, they were evidently much im-pressed by what they saw. One of the first features of American postoffice developments which they encountered as they entered the local postoffice as they entered the local postoffice building was the Bundy clock recently installed, to keep tab on the arrival and departure of the employes. It was their first introduction to such a sys-tem, and Chief Clerk Kenake was un-certain during their inspection as to whether or not they would make an offer to purchase it and forward it to Yokohama on the first mail steamer, Such a means of keeping the time of

Such a means of keeping the time of government employes has never been brought to the attention of the Japanese officials before, and it is not unlikely that a number of the clocks will be ordered and sent on for trial.

The officials also had an opportunity to witness the manner in which arriving mails from the Orient are distributed, and the local mails made up for forwarding to the Mainland. The carriers' department, sacking, routing.

The chief clerk pointed out to them the difficulty with which the arriving mails from Japan were assorted for deliveries here. Most of the letters from Japan, he told them, came addressed only in the vernacular, and this prevented their delivery by carriers, and permitted of their being handled in the office only by the Japanese mail clerks.

## CHANNEL WORK TONY AFONG KILLS TWO CHINAMEN

Teny Afong, son of Mrs. Julia Afong of this city, who is at present living with Mr. Afong in China, was forced to flee from Macae to Hongkong, where he and his father were under the protection of the American consul when the steamer left that port. Dr. Kinyoun, of San Francisco, who has been in China, states that Tony killed two Chinese who at-tempted to break into his father's premses, and for this the Chinese surrounding Macao, who are hard pressed during the present slege of hard times, menaced his life.

The alms which Mr. Afong has been in

the habit of giving to the poor Chinese were thought insufficient by them this year, and they attempted to force Mr. Afong to give more. They were kept out of the premises, but with reinforcements entrance was made, whereupon Tony used a shotgun with deadly effect on two of them. The mandarin of the district demanded that Mr. Afong pay \$40,000 for the two Chinese, which was refused. The coolles threatened to kill Tony if he ever puts in an appearance again at Macao,

A Liquid Mixture Designed to Protect COWS AND HORSES From Torture by Flies : : :

ant and Germicide.

A Valuable Disinfect-

O-BOS-50 (Kilfly) is a liquid mixture designed to protect cows and horses from torture of files. The preparation is positively harmless. It is used with splendid results as a disinfectant and germicide. The Electric Sprayer discharges the So-bos-so (Klifty) in a fine, broad spray. From 30 to 50 cows can be sprayed in a few moments. The Electric Sprayer is detachable, and thus may be thoroughly cleaned.

If your animals are troubled with lice use So-bos-so (Klifty). It knocks them out. Spray your poultry house with So-bos-so (Klifty). It kilis lice, or any vermin that may infect the fowls.

### FOR HORSES.

So-bos-so (Kilfly) is invaluable as a disinfectant for spraying around the stable; at the same time prevents the irksome torture of flies. Used with splendid effect on horses while at work, especially draft horses, traveling at a slow pace and oft-

en times obliged to stand for long intervals, harnessed to the truck, exposed to the torture of the beastly files, while the teamster is loading unloading, or otherwise engaged. Blacksmiths will greatly appreciate the preparation. A moment's work with the Electric Sprayer and a little So-bos-so (Kilfly) will rid the shop of files, and the horses stand perfectly quiet

Your use of So-box-so (Kilfly) will result in more and better milk, more money, more comfort for cows, for

Kilfly has proved a perfect success in this Territory, and until the arrival of large invoices recently, we have been unable to fill all orders. We have now a supply on hand and more on the way.

Sufferers from the HORN FLY should give Kility a trial.

We are the sole agents for the Territory of Hawaii.

#### THANKSGIVING DAY.

Thanksgiving day did not, as many suppose, descend from the Puritans. It was copied from them and its observ ance borrows much on the religious and domestic sides from the rites of Massachusetts forefathers. But there was a long lapse of years between the last stated feast of the Puritan communities and the Thanksgiving observance to which the American people are now annually summoned by their Chief Magistrate. Not until the Civil war was in its crisis did the Thanksgiving day we now know enter the calendar of

American holidays. It was then a day of sectional suppli-The Union was divided and in the South President Lincoln's proclamations were without invitational force. Nor has the November feast ever be-come broadly national. The South still looks askance at it, preferring Christmas as a stated time of reunion, banqueting and religious ceremony. But wherever the northern spirit goes, Thanksgiving day receives its full meed of recognition. That is why the Ameri-As soon as the visiting Admirals felt can community in Hawaii has, for the heat and thirst of Pago Pago they eighty years, observed the last Thursapparently decided that Capt. Tilley day in November as it will again do

The manner in which the day is celebrated depends upon the temper and The Asia school-house is in a bad habit of any given community. In some places the religious note is dominant; in others the day calls out the horse-racers and gamb'ers, the pot-hunters and turkey-rafflers; in the great cities all classes celebrate in their own way, both saloons and churches being crowded. But the keynote of the day is the reunion of families and this is the fact by which Thanksgiving most appeals to the popular heart and in which are the seeds of its perpetuation. Today hundreds of thousands of sons and daughters will assemble under the old roof tree. The third and even the fourth generations will come. Grandfather and grandmother will tell their old stories to children who are gray; long separated brothers and sisters and cousins will clasp hands and ook into each other's kindly eyes; the There may be substitutes for Li little ones will store up blessed memories for after life. There are many in this tropical city today who will spend England. On the way, the wind howled and buffeted the flying sleighload with crystals of snow, but it only served to come at the door, the warmth and so generous of spices, the raised biscults upon which the honey was spread, the chicken pie, the baked, home-cured ham, the wholesome preserves, the cheese, the cold cider just beginning to get an edge, the butternuts and celery Perhaps there was a country dance in the parlor afterward; perhaps there perhaps the family had an afternoon of

> perience; they are better for having lived in them and dated from them. We cannot surround Thanksgiving in Hawali with New England scenes nor infuse them altogether with New England customs; but the family reunion

THANKSGIVING DAY.

Hotels - Sports and Drives Enliven the Occasion.

T WAS not a real old New England

Thanksgiving in Honolulu yester-

day, but a real Hawaiian day for giving thanks for the pienty and prosperity which has visited these Islands during the past year. But the spirit of the old-fashioned family thanksgiv-

ing was apparent in all things just the same, and all that was lacking was the falling of snowflakes, the jingle of

sleighbells, the bobsied coasting, skat-ing upon a mill pend and washing the

girls' faces with snow to redden their cheeks. These were the elements of the "Down East" Thanksgiving which

were not apparent in Hawaii yester-day, but the big, juicy turkey gobblers filled with toothsome dressing, graced

the tables which were surrounded by grandparents, parents, and the ex-pectant boys and girls, and there was

just as much cranberry sauce, and as many mirce and pumpkin pies as were to be found on a New England Thanks-

ding cocoanut trees, swaying palms, a myriad of feathery ferns, rustling ba-nanas and a vista that was all green and tropical and beautiful. Such was

Thanksgiving day in Honolulu. But at

many a dinner table yesterday there

were homesick ones who expressed a desire to again be eating their Thanks-

white with an ever-thickening mantle of snow. Sweet to these in Honolulu yesterday would have been the distant

sound of the tinkle, fingle, tinkle of sleighbells and a glimpse of a cutter swiftly coursing over the white surface

behind a steed all a tingle with the

sions into the country or to the beach to take a dip into the surf at Waikiki,

and all were attired in costumes suit ed to a tropical country and to withstand the flerce onslaughts of Old Sol, whose face beamed never so brightly

crisp, biting air.

## REPUBLICANS TO DISCUSS NEED FOR EXTRA SESSION Turkey Feasts in Homes and

When the Republican Territorial The most important matter which is Committee meets on Monday there to come up, however, is one upon promises to be in sight enough business to insure an interesting gather, by any means settled, it is known ing. The meeting has been called for that there is to be introduced a reso-

ber of the fire claims commission.
Under the resolution as passed at the last meeting, in the event of the absence from the Island of Oahu of a member of the executive committee whose proxy is not in the possession of a member of the various committees, his place may be filled by the committee. This will permit the executive committee to choose a member to sit in the seat of Coelbo, which undoubtedly will be John C. Lane. There may be also a vacancy in the Territoriat Committee to which Lane will be advanced at the same time. The rule will solve the very difficulty which was aimed to be met by the addition of two new members will at once send in proxies, and thus fill the executive committee. This plan is that suggested by Chairman Kennedy of the committee as the solution. The members of this body outside of Oahu as a same to the committee as the solution. The members of this body outside of Oahu as a same to the claims committee.

""" ciation of the Governor and a request upon the President for his removal, but there is absolutely no chance that such a step will be taken by the Territorial Committee.

From the best sources the following forecast is drawn: When the committee that he sake a step will be taken by the Territorial Committee.

From the best sources the following forecast is drawn: When the committee that he will be in a step will be taken by the Territorial Committee.

From the best sources the following forecast is drawn: When the committee will it is either tired or sees that new light is needed, then adjournment will be had, probably for two weeks. Coupled with the adjournment resolution will be an invitation to members of the Legislature elected by the Republican party, to meet with the committee when it reassembles, for the purpose of discussing the needs of an extra session, and the probablities that any good would be accomplished should such an extra session be held.

The adoption of this committee we had been adjournment will be an invitation to members of the Legislature elected by the Repu tion. The members of this body outside of Oahu, exclusive of Judge Kepoikai, are as follows: John Maguire, Kona; Dr. B. F. Sandow, Kauai; Jas. would be considered as definite and final.

the committee's headquarters for 7.20 intion declaring it the sense of the p. m., so that the entire evening may be attilized if it seems necessary, and the prospects are that there will be held, for the purposes of passing a taxation and a loan measure, so that the night. the night.

The meeting of the committee promises to be one which will be fully attended in person and by proxy. The proxies have been coming in right merrily during the past week, and the contagion having spread somewhat, the proxies are rolling in unsolicited to the leaders of the party here. It is believed that not less than twenty-six between them. Stewart is believed to be the believed that not less than twenty-six them. Stewart is believed to be the votes will be cast, and the number man chosen. What is to be the outmay yet reach the full strength of the come of the fight over this proposition

may yet reach the full strength of the committee.

There is a great deal of work before the committee, but upon one point alone does the outlook seem to be absolutely clear. That is that the majority, in the interest of harmony alone, will rescind their action of the lest meeting entirely. This does not mean alone the declaring vacant of the places to which were elected J. A. Gilman and J. W. Jones, but as well the undoing of the work whereby the size of the committee was increased from nine to eleven. This will leave the committee just as it was, made up of five members from this Island, of whom one, Coelho, is absent from the other Islands, of whom one, Judge Kepolkal of Mani, is now here as a member of the fire claims commission, Under the resolution as passed at the last meating, is the avent of the alone of the fight over this proposition is a question which is keeping all the politicians guessing.

That there will be a long discussion is probable. There are men in the committee who are primed for the occasion with oratory and plain words, and who will take time for their escape. There is said to be no disposition on the part of any one to cut off debate. The general belief is that the more talking the better for the situation, as the atmosphere may be cleared thereby, and the outlook for mutual acquiescence in any settlement made thereby and the outlook for mutual acquiescence in any settlement made thereby, and the outlook for mutual acquiescence in any settlement made thereby and the outlook for mutual acquiescence in any settlement made thereby, and the outlook for mutual acquiescence in any settlement made thereby, and the outlook for mutual acquiescence in any settlement made thereby and the outlook for mutual acquiescence in any settlement made thereby and the outlook for mutual acquiescence in any settlement acquies

milled lunch baskets.

Morning services were held in St. Andrew's Cathedral, Central Union Church and the Catholic Cathedral, and hundreds were present to give praise and thanks to God for the gifts, prosperity and peace which they had enjoyed during the past year. The services at Central Union were for the Methodist and Christian churches, as well as for the Central Union, and the offerings were divided equally among the churches, and the sums so set apart were used in providing Thanks-giving dinners for many who would perhaps otherwise have gone without

In the afternoon all roads led to the campus of the Oahu College at Puna-hou, where the Thanksgiving football game was played. The electric cars were crowded to their full capacities throughout the day, and for two hours before the game began the cars followed one another out on the line to Punahou in quick succession, several Later on, during an argument in the center of the field. Cunha advanced and gave his opinion of the umpire, who ordered him outside the ropes, throughout the day, and for two hours before the game began the cars followed one another out on the line to Punahou in quick succession, several thousand people being thus carried through the city, Carriages, hacks and Cunha refused to go and Carter threatened to quit the game unless the would hold human beings drove but the cars followed one another out on the line to Punahou in quick succession, several thousand groups the cars followed one another out on the line to Punahou in quick succession, several thousand groups the cars followed one another out on the line to Punahou in quick succession, several thousand groups the cars followed one another out on the line to Punahou in quick succession, several thousand people being thus carried thousand people being the carried thousand people being thus carried thousand people being thousand people being the carried thousand people being the carried thousand people being thus carried thousand people being the carried thousand people bei

Curha parleyed with the officers, and Carter then charged him and forced him to the rope. A promise of arrest finally caused Cunha to cross the rope, where he remained during the rest of the game.

Chris Holt then got into trouble with the deputy sheriff for refusing to get ance at the Orpheum, both places being confertably filled. The weather was Chris Holt then got into trouble with the deputy sheriff for refusing to get outside the rope and had to be put out after an exchange of compliments with rain or even a threatening cloud marring the day.

ARCHAIC TORTURE, In the old days of persecution, one of In the old days of persecution, one of the favorite methods of execution was to the the victim to a stake planted on the sea shore, and let him watch the waves as they rippled in, while the tide rose inch by inch, and every inch of the rising tide was a step nearer to death. That is a picture to make one shudder. But look at our own condition. Here is the man bound to his business, the woman bound to her household duties, like the victim to the stake, and one symptom of disease the stake, and one symptom of disease after another shows the tide of death closing in on them. The tide comes in so slowly that they don't realize their danger, often, until too late, when it is useless to cry for help. Examine your own condition. Are you sleepless? Is your body branded and blistered by eruptions? Is your appetite falling? Are you irritable? Is your breath bad and your tongue coated? These are some of the symptoms that indicate the rising tide of disease. Do you want to be saved? Sagwa will save you. Sagwa, the great Indian remedy, has saved thousands from just such peril. It drives out the impurities that taint later that taint later that the company of the united States are probably very wholesome in protecting the labor element and in excluding a class who make no professions to taking part in the politics of the country. They were made for America as she is, including the matter to make laws which are beneficial to all parts of so great a republic, in that taint later that the country. They were made for America as she is, including the matter to make laws which are beneficial to all parts of so great a republic, in that taint later to make laws which are beneficial to all parts of so great a republic, in that matter to make laws which are beneficial to all parts of so great a republic, in that matter to make laws which are beneficial to all parts of so great a republic, in that matter to make laws which are beneficial to all parts of so great a republic, in that the matter to make laws which are beneficial to all parts of so great a republic, in that the matter to make laws which are beneficial to all parts of so great a republic, in that matter to make laws which are beneficial to all parts of so great a republic, in that matter to make laws which are beneficial to all parts of so great a republic, in that matter to make laws which are beneficial to all parts of so great a republic, in that matter to make laws which are beneficial to all parts of so great a republic, in that matter to ma the stake, and one symptom of disease thousands from just such peril. It drives out the impurities that taint thousands from just such peril. It the immense tracts which the Chinese drives out the impurities that taint blood. It enables the stomach to disperse and assimilate food. It cleanses the kidneys and tones up the liver. By tracts which were of no utility for other removing the obstructions that prevent the harmonious working of the great the harmonious working of the great organs of the body, it enables Nature to carry on her work. The utmost that awill is indebted to the industry and perseverance of the Chinese, it is not a difficult matter to show the extent to carry on her work. The utmost that awill is indebted to the industry and perseverance of the Chinese. If such any medicine can do is to assist Nature. Great interest has been awakened in Germany by the recent visit to Wash-ington of Governor General Wood, of Cuba, "and the conviction is growing

under the generous and sympathetic protection of the United States, and under conditions which will favor the development of the sugar industry of

Editor Louisiana Pianter:

1 note in your issue of September 2s an article headed "Preliminary and Intermediate Filtration of Suagr Solu-This statement appears in an interesting report from Consul General Mason at Berlin to the State Department, dated October 14, showing the damage which the sugar production of Cuba, in particular, is dealing to the sugar exporters of Europe.

It is generally recognized, says Mr. service in filtering raw, cold, mill juice for sugar cane and sorghum."

In order to remove some misappre

hension under which the author is evi-dently laboring, I wish to state briefly the actual facts concerning sand filtra tion in the Hawalian Islands. Sand filters have only been in use in the sugar houses of two plantations, at one previous year. Unfortunately for Germany, the overwhelming production for several years and at the other only comes at a time when industrial depression and a short wheat and rye to be installed for the coming crop, altrop have seriously reduced the purchasing capacity of the poorer classes.

DECLINE IN CONSUMPTION. ters will be distributed in about eight as sugar houses (from six to ten filters in in each) grinding about 600 to 1,200 tons 7 of cane in twenty-four hours. They are not to be used for the filtration of the fiscal year at 75,000 tons.

"To complete and still further darken the shadow," says the consul general, tration of hot, clarified juice after it trained threatening competitor in the United States, which, during the past year has taken an average of 283,000 metric tons of German sugar, valued at \$12,514,000 per annum."

These conditions, it is stated, have through sand will remove more effectively the last traces of insoluble insertions.

ively the last traces of insoluble im-purities than can be accomplished by intermittent settling in the common, open tanks, or in the continuous type of settlers. Sand filters will therefore not take the place, for the present, at least, of the settling tanks, but will form a means of after-filtration before

LOCAL DAILY

The management of the Honolulu Republican will pass sometimes this month from the present hands. At the recent meeting of the stockholders tion of E. S. Gill, who has been editor of the paper since its foundation, was accepted, to take effect Jan. 1, 1902. At the same time the editorship was filled by the choosing of C. R. Buckland, who recently has come to Honolulu with his

years Buckland was formerly editor of the Bulletin here, leaving to become pri-vate secretary to John D. Spreckels, and later editor of "The Merchant," in San

treasurer of the corporation to ain notes for money advanced to pay the running expenses of the paper by the majority stockholder. The statement of the treasurer covered the four months which had elapsed since the meeting of June, which was reported at that time. The financial statement showed that there had been incurred during the five months an expense of over \$3,600 in the running of the journal. The average deficit for each month has somewhat exceeded \$730, and the stockholders failed to get any good reasons why they should believe that an alteration in the status of affairs might be expected. The report of the treasurer showed also that with the notes so far given and authorized,

this time, a total of \$10,000. Stockholders of the company which publishes the Honolulu Republican give it as their opinion that a controlling in-terest in the shares of the company can be purchased after this showing, at 25 cents on the dollar; but they say also that Judge Humphraya will not discount that Judge Humphreys will not discount his advances of cash by one penny, which means that it would take something like \$15,000 to secure the paper and its pub-

the corporation owes Judge Humphreys, who has advanced all the money up to

iishing company. It is said that a shake-up in the office of the journal is in prospect. One new man has been imported within the past two weeks, and others are said to be due to arrive. An offer is said to have been made to former business manager John son to resume that relation with the newspaper, but that the offer was de-

The circulation of the paper is down near the zero mark, and advertising bills are settled for about anything the advertiser will give.

## Turkeys Given Away.

Seventy-five big, fat turkeys, with all the accompaniments of cranberry sauce, mince ples, pudding and many little relishes, were distributed yesterday under the auspices of Rev. William Kincaid, paster of Central Union Church, to the sick, to strangers far away from their homes, and to several recently married couples. The seventy five turkeys represented that number of dinners and the same number of persons remembered. Last year but twenty-five turkeys were given away in this manner, but the influx of Americans during the past year has created the needs for three times that number The Rapid Transit Company did a big business yesterday, carrying in all have multiplied many fold, and it was 11,581 passengers, using thirteen motor for these that the dinners were mostly

The morning of life is the time of abundance, profusion, strength, vigor, growth. When the sun begins to sink, when the midday of life is past, then the bair begins to fade and the silvery gray tells of approaching age.

Sunrise or sunset? Which shall your mirror say? If the former, then it is rich and dark hair, long and heavy hair; if the latter, it is short and falling hair, thin and gray hair.

The choice is yours, for

## Ayer's Hair Vigor

always restores color to gray hair, stops falling of the hair, and makes the hair grow long and heavy.

This is something you have been looking for, isn't it? And it is something you can have confidence in, for it is no experiment; people have been using it for half a century. We do not claim it will do everything, but we do claim it is the best hair preparation ever made.

## A Big Row One of the Honolulus, and then allowed the touchdown, instead of penalizing the offenders five yards. They said that as soon as Carter signalled off-side, Ylda, who had tackled Morse, released the Leading Events.

WENTY-NINE to six in favor of the Punahou Athletic Club was the score at the conclusion of the big football game yesterday, and any doubts which may have existed as to the superiority of the winning team over others of the league were com-

pletely swept away.

It was a memorable game in many respects, and while the quality of the football played was, on the whole, disappointing, the contest fairly bristled with sensational incidents, and the huge crowd of spectators certainly got

their money's worth of entertainment. The gathering on the campus was perhaps the largest which has attended a sporting event for many years, When the game started there must have been 1,500 people present, and at the end of the first half the attend-ance was well over the 2,000 mark. The ropes were lined three deep, and be-hind were numerous vehicles, each creaking beneath its load. More tickets were sold than there were accommo-

dations provided. which came to enjoy themselves. It was also a very demonstrative crowd which cheered, yelled and hooted when it thought there was the slightest ground for such outbreaks of favor or otherwise. The majority, probably, would not have passed an examination for an umpire's job, but this in no wise diminished their enthusiasm. They witnessed the effort and its sequel of victory or defeat; the tournament of brain and brawn; the passion and just of the struggle, and were satis-

The scene was a gay one. Everyone wore club colors. The red and white of the Honolulus, the gold and blue of the Punahous, and the bizarre green and gold of the Maile Ilimas, all helped to make a spectacle which was kaleidoscopic in coloring and shifting effects. The colors of the contesting clubs were identical with those of the two great California universities.

Over night the Punahous ruled fators.

Wise tempt to capture it. The football itself was tame compared with the howling interlude provided by Messrs. Cunha. Holt and Carter.

At 3:30 o'clock the teams lined up as follows:

Punahous.

H. A. C.

Armstrong

R. E. L.

Armstrong

R. T. L.

J. Waterhouse

Wise

Over night the Punahous ruled fa-vorites in the betting, but there was quite a disposition to hedge on the field. The natives were with the Ho-nolulus to a man and did not hesitate to back their choice. Another thing which made friends for the Honolulus was the fact that Henry Cockett was was the fact that Henry Cockett was included in the team. His name had been omitted from the lists furnished to the press, and his presence was colculated to greatly strengthen his side. The best team won, and that is about all there is to it. The Punahous devel-oped surprising strength and their opponents equally surprising weakness.
The Honolulus were simply outplayed
at every stage of the game in the second half, while in the first half they
managed to hold their own.
The score at the end of the first
half was six all. Morse scored for

half was six all. Morse scored for the Punahous, and Gleason did the trick for the Honolulus. In the sec-ond section of the game the Punahous touched down four times, J. Marcallino (2), Soper, A. Marcallino and Morse crossing the line. Goals resulted from five of the six touchdowns, and the

live of the six touchdowns, and the kicking was remarkably accurate.

Gleason's great 90-yard run was the feature of the game. Punahous had the ball on the Honolulus' 20-yard line and as soon as it was snapped Gleason broke through center, secured the ball and ran the whole length of the field with it, never being headed. Blaisdell deserves great credit for his superbinterfering on Gleason's behalf.

There was trouble galore throughout.

There was trouble galore throughout the game, and George R. Carter, the umpire, had his hands full from whis-tle to whistle. When the Punahous made their first touchdown the Honolulus protested on the ground that the dents of the Islands, Mr. Hall being sumpire had signalled off-side against engaged in business in this city.

his hold, enabling him to score, Carter said that he had given his deciston, and the Honolulus continued the

game under protest.

Vida and Cunha were both put out of the game for slugging, and this tended to further irritate the Honotended to further irritate the Honolulus. The climax came when a Punahou man slipped and fell on Blaisdell, nearly knocking him out. The Honolulus then declared that they were and gave his opinion to the umpire, decisions, and refused to proceed with the game. After being on the verge of leaving the field, wiser counsels prevailed, and the game proceeded.

Chillingworth.

During these incidents the deputy sheriff's horse got away and the crowd swarmed over the gridiron in an at-tempt to capture it. The football itself was tame compared with the howling

## CHINESE HAVE LABOR TROUBLES

Editor Advertiser;-"Rice culture is chiefly in the hands of the Chinese, and does not suffer from labor troubles. These people are possessed of a persistent in-dustry which ought to command general respect. They deserve success for they work hard for it."

The writer of the above in the Adver-tiger of the 23rd would not have penned those lines if better acquainted with the family, after an absence of eighteen subject. If she had known the number of Chinese capitalists who are engaged in the rice industry who are quivering on the verge of bankruptey on account of labor troubles, it is certain the opposite of the truth would not have been pub-lished. Of all the industries in this Tercrowd of spectators certainly got money's worth of entertainment, gathering on the campus was appeared to go and Carter the deep to go and Carter the company's worth of entertainment, gathering on the campus was specified and Deputy Sheriff that the deep and been 1,500 people present, and was well over the 2,000 mark. The were lined three deep, and be were lined three deep, and be well ower lined three deep, and be well ower lined three deep, and be sportled to the deep three three deep three th a very high point, as all admit who have to pay them, or who have lands to rent. The price of rice is fixed by the law of supply and demand, and importation of Japanese and foreign rice. Wages for field hands, which were formerly \$12.50 and board per month, have advanced to \$25 and \$26. This, together with the customary board, makes it cost the emplayer close to \$22 and \$23 per month. Nothwith-standing the ability to produce two crops per annum, there is to be considered the per annum, there is to be considered the accidents of storm, which cause great loss at times. It is not prophesyling to state that if there is not some change made in the immigration laws many bankrupteles will occur within two, years amongst those who have much money invested in this industry. A large petition will go forward to Congress explaining the situation and asking that Chinese la-borers, either limited in number or as to the period in which they may remain here may be allowed to come to the Ha-walian Islands.

The exclusion laws of the United States tem and promote the healthy action of the product, the number of instructive to the coming Congress, who

JAS. W. GIRVIN.

# Thankful

We all have something to be

Do you ever stop to think how much better off you are than the average person in any other part of the world.

Are there many of us hungry and begging for employment?

Do we have to look forward with dread to the cold winter, which takes all we have saved in the summer, to keep us from freezing?

How about the neat little home you occupy, with the beautiful open-air life?

Some of us may feel blue this year because we foolishly speculated, but do not let that discourage you. It was an expensive lesson, but you will be more careful in the future.

With your family and friends around you next Thursday you will require a few more articles for your table, such as Meat Dishes, Plates, Cups and Saucers, Tumblers, Beer and Wine Glasses, Carvers, Knives and Forks, Spoons, etc.

Whether you are rich or poor, we can supply your wants to your entire satisfaction.

# BOULEVARD FROM CITY TO PARKS

## Club is Projected To Carry Out Work.

FTER preliminaries which have A consumed a week consumed a week of discussions, a boulevard which will connect the city proper with the park and Diamond Head road, have reached such a stage of development, that a meeting of the projectors, to inaugurate the Boulevard Club, will be held before the end of the week. The original plan has developed until now what was at first discussed as a simple driveway to Ka-piolani Park, is planned to be an avenue which will be a distinguishing

feature of the city. According to the present outlook the ried out by the club shall be dedicated idea of those who have been at the to the public. front in the arrangements for the drive, is to make the boulevard of great-width, give it ornamental features and separate crowns for the various vehi- five years, cles which will use it. The leading the N. W. C. which is to be tapped by the extension of King street, will be taken up first. The building of the boulevard will be a work of magnitude, and will consume many months.

Captain N. Griswold, who is promotthen proposed to sesure the names of at least 2,000 persons, who will piedge themselves to pay \$1 a month for twenty-five months, thus bringing in \$50,000 clinton J. Hutchins, The Pacific ty-five months, thus bringing in \$50,000 toward the cost of constructing the speedway.

"The proposition," said Captain Griswold, "is for a four-mile speedway, starting somewhere in the neighborhood of Union Square and running straight out to Kapiolani Park, there connecting with the Diamond Head road. It is proposed to make this a 100-foot wide boulevard with a 20-foot track in the center for bicycles flanked on either side by rows of poincians:

30-foot driveways for carriages on either side of the bicycle roadway, and two 10-foot sidewalks for pedestrians, with rows of palms lining them. The boulevard would be covered with asphalt rock, making it free from dust

## ELECTION OF OFFICERS.

NOTICE IS HEREBY GIVEN THAT at the annual meeting of the Halea-kala Ranch Company, held on the 21st instant, the following officers were elected to serve for the ensuing year,

H. P. Baldwin, Esq., President.
L. A. Thurston, Esq., Vice Pres't.
Geo. H. Robertson, Esq., Treasurer.
E. F. Bishop, Secretary,
W. G. Taylor, Auditor.
E. F. BISHOP, Secretary.

Dated Honolulu, November 22, 1901. 2336

Borges. J. A. M. Osorio, administrator, is required to pay over \$213.70 to the min-

same time information of much value to the taxpayers generally. The Supreme Court reverses the lower court in the proposition that property can be but the assessor's predecessor gave further time for the filing of a schedule of the state, and such a baseled to the decisions, which are made in the matter of the Estate of Bernice Bishop and of Emily K. Mehrtens about \$25,000 is added to the taxable valuation of the

The opinion of the court is as follows in the matter of the Bishop Estate:
A decision of a Tax Appeal Court,
though not having the conclusiveness of verdict, should not be disturbed

for light reasons. To apply the eight-rental rule (Civ. L., Sec. 89) to determine the value of the landlord's interest in land for purposes of taxation would be manifestly unfair and unjust where the land was leased

When a taxpayer makes a return within the time prescribed by the statute, standing leases or other interests. On and the assessor gives him further time for furnishing additional information, even when a person refuses or neglects and he furnishes such information and it to is accepted by the assessor as part of the return, the latter cannot object on appeal that the return was not complete in this bis accepted by the statement of the peak that the return was not complete in this the first instance.

OPINION OF THE COURT. By Frear, C. J.

This is an appeal by the tax assessor from the assessments made by the Tax Appeal Court of two pieces of land be-

Appeal Court of two pieces of land belonging to the Bishop estate.

The first is a lot fronting on Union square in Honolulu, containing 8,350 square feet. Its dimensions are 50 feet on King street, 79.8 on Richards street, 94.5 on Merchant street, and 106 in the rear. It was returned at \$30,000, assessed by the present as sessor's predecessor in office at \$50,000, admitted by the present assessor to be of the fair value of not over \$50,000, and valued by the Tax Appeal Court at \$50,000. The assessment was made as of January 1, 1901. The evidence was substantially as follows: This lot fronts on three streets and is vacant and unimproved. A streets and is vacant and unimproved. A lot, also vacant and unimproved, not far away, on another corner of the same block, nearer the center of the town, having about 35 feet frontage on Merchant street and 73 on Alakea, was sold in June, 1901, at the rate of \$6.22 a square foot. It was returned for taxation by its former owner at the rate of \$5.47 a square former owner at the rate of \$5.47 a square former owner at the rate of \$5.47 a square foot. There is no evidence as to the cir-cumstances under which the sale took place. One witness, a government surveyor, testified that in June, 1900, he valued all the lots in this block for the Superintendent of Public Works, and that after due consideration he valued the lot just referred to at \$4.44 a square foot, and the lot now in question at \$4.50 a square foot. Another surveyor, the superintend-ent and land agent of the estate in question, testified that the return of \$30,000 or about \$3.50 a square foot was made after careful study, and that there had been a tendency in 1900 toward a lowering of values. A lot in an adjoining block, nearer the center of the town, with a frontage on King street, but not a corner lot, containing about 21,000 square feet, was sold in July, 1839, at auction at the rate of a little less than \$2 a square foot. The Tax Appeal Court state in their de-The Tax Appeal Court state in their de-cision that two lots, not corner lots, ad-joining the lot in question, had been as-sessed at \$2.40 and \$2.25 a square foot, though we do not find this in the tran-script of the evidence. The evidence is rather meager on which to base an estimate of the value of the lot. While the decision of the Tax Appeal Court has not the conclusiveness of a jury verdict, it is entitled to some weight. We do not find sufficient reason in this instance for disturbing the finding of that court and accordingly it is affirmed.

The other lot is one of about eleven acres situated at Pawaa, in Honolulu, with a frontage on the lower side of King street between Sheridan street and the Waikiki road. It was returned at \$800, assessed at \$30,000, and valued by the Tax Appeal Court at \$800. The peculiar feat-ure is that the tract is subject to a lease for forty years at a rental of only \$100 a year, the lease having twenty-one and a half years yet to run. There seems to be no dispute that the land unincumbered is worth \$30,000, as held by the Tax Appeal Court. But as it is rented for only \$100 a year, that court valued the land, subject to the lease, at only \$200-presumsum of eight years' rental thereof shall be the assessment value of such real es-tate or house, unless such valuation shall be manifestly unfair or unjust." This "eight year rental rule" was discussed in Parker vs. Shaw. 9. Haw., 407, and Chilton vs. Shaw, 13 Haw., 250. A valuation under that rule is generally "manifestly unfair and unjust" when, as here, the property was leased years ago at a small-er rental than could now be obtained. Just what the valuation of the landlord's pired term of the lease and the difference between the stipulated rental and the market rental value. The value of the piration of the term approaches, other things remaining constant. Of course, the value of the property as a whole may change so that the values of both interests may increase or decrease absolutely, though the values may change in differthough the values may change in differ-ent directions relatively to each other. Presumably when the lease was made, the stipulated rental was the market rental value. If that were so, the value of the land at that time on the eight year basis was \$800. It has now increased to \$30,000. A portion of this increase be-longs to the landlord, who should pay taxes on that portien. This is a property yax not an income tax. The Tax Appeal tax, not an income tax. The Tax Appeal Court, by following the eight year rule,

the leases of the estate, and such a schedule was prepared and handed to him in the month of May, and was accepted by him as one of the documents to go with the return, but the present assessor did not know of this. The as-sessor then found this schedule, and pro-duced it before the Tax Appeal Court. The person making the return should

take care that he compiles with the stat-ute and properly describes his interest in the property. It may be that the re-plenty of easy talk and laughter—that turn blanks furnished by the assessor should be more explicit. The only column provided in those blanks for descrip-tions of leases by landlords is that which is headed "Description and Situation of Land and Improvements." There is no specific reference to leases or special inmineteen years ago at a rental of only specific reference to leases or special interests in land. But if a person omits to can possibly be got from a dinner, I say, though the lease has twenty-one years yet to run. The landlord's interest is of land, he cannot complain if the assessed at \$7,500.

That you may get all the benefit sessor assesses him as sole owner in the absence of other information as to outto make any return whatever, the assessor cannot act arbitrarily or capricious-ly. He must make the assessment "according to the best information within his reach." His valuation, even though greatly excessive, may not be subject to followed the sea. Although he does not appeal, but there may be other remedies, in case it could be shown that he had acted fraudulently or capriciously or with gross carelessness, and not accord-ing to the best information within his reach. It may be a question how far the requirements of the statute can be waived by the assessor. It is clear that there are some provisions that he cannot digestive apparatus failed to respond to waive, as, for instance, that which adds ten per cent. to the tax after it becomes Writing on the 6th April, 1900, he delinquent. But there would be nothing to prevent him from using, in making an assessment, any information that might be furnished him by the taxpayer after the time limited for making the return, and, in our opinion, if the taxpayer acts in good faith, makes a return and is ready and willing to furnish further information, the assessor expressly gives further time for furnishing such infor-

> a view to carrying out the prob-able intention of the legislature. The legislature apparently inserted the penal provision in question mainly to prevent fraudulent or wilful or grossly careless violations of the statute, and not to impose unnecessary hardships on those who endeavor in good faith to comply with the statute. It inserted the pro-vision as to returns and what should be stated therein in order that the assessor might have the requisite information for making the assessment. In this instance he had just the information he desired

Sharpe vs. Engle, 2. Okl., 624.

The decision of the Tax Appeal Court assessing the lot on Union square at \$39,000 is affirmed, and that assessing the appellee's interest in the lot at Pawaa at \$500 is reversed, and that interest is assessed at \$7,500.

(Signed.) W. T. FREAR, C. A. GALBRAITH, A. PERRY. ROBERTSON & WILDER, For the Assessor. HOLMES & STANLEY,

For the Bishop Estate. The decision as to Emily K. Mehrten's appeal is as follows: Under our statutes, one who returns

lard for assessment purposes as sole owner, without mention of a lease to

OPINION OF THE COURT. By Frear, C. J.

This is an appeal by the Tax Assessor from the assessment of the Tax Appeal Court of a lot in Honolulu having a frontage of 345 feet on Alakea street, 32 feet on Queen street, and 97 feet on Haably under the provisions of the statute (Civ. L., Sec. 820), "that when any real square feet. The lot is subject to a lease estate or house is leased or rented, the sum of eight years' rental thereof shall at an annual rental of \$990. It seems not al es-shall bered by the lease, would be worth \$25,-This 600. The value of the landlord's interest would be \$7,200 if estimated by the eight year rule. (Civ. L., Sec. \$20.) This is the amount returned by the taxpayer, and fixed by the Tax Appeal Court. To apply that rule in this case, however, would be "manifestly unfair or unjust," to use the inguage of the statute, and therefore it Just what the valuation of the landlord's interest in such a case should be, depends principally on the length of the unexprincipally of the un sessment of \$15,000, but that court nevertheless adhered to the eight year rule. We need not make an estimate of the landlord's interest increases and that of value of the property subject to the lease. the tenant's interest decreases as the exsessment by the assessor conclusive and standing lease is concerned,

This case is much like that of the Bish-op Estate, supra, in that a return was made of the property as if owned in fee simple, and no mention was made of the outstanding lease. It differs from that case in that no further time was given for furnishing information as to the lease and no such information was furnished, and, as far as appears, the assessor knew nothing about it, It is true the Honolulu Iron Works, the lesses, gave in its return a list of the leases held by it, and among them the following: "Alakea and Queen Sts. (E. & J. Mehrtens), \$90." But this was in the return of another party, the description is very simple, and no mention was made of the outstanding lease. It differs from that corps of Oahu College, is William H. Heen, and the business manager is gorge Canavarro. The other members of the writing and business staff are Charlotte Dodge, Alexander Walker, Florence Hill. Frederick Lowrey, Florence Hill. Prederick Lowrey, Florence Hall. Douglas Kincaid, Ruth Whitney, Edith Spalding, Sherwood last assessment until June next. E. E. Paxton, managing director of the B. F. Dillingham Co. left for Hilo to inspect the Olaa mill which will be runsimple, and no mention was made of the outstanding lease. It differs from that case in that no further time was given property worth \$29,200 (\$30,000—\$800), to come into possession twenty-one years

## Boyd and Campbell Return From Hawaii.

(From Wednesday's daily.)

James H. Boyd, superintendent of Public Works, and Marston Campbell, his assistant, returned from Hawaii yesterday after a two weeks' tour of the island, investigating its need for public improvements. They gained a thorough knowledge of the roads, buildings and wharves required in the North and South Kona districts and the work will be done when the funds for the purpose can be obtained. There is room for the expenditure of enormous sums of money to make the roads as they should be, and some of the people who would be benefitted by the improvement, according to Mr. Boyd, believe that the only way they can obtain it

Speaking of the results of his trip yesterday Mr. Boyd said;

"We found the roads generally in a pretty bad condition. Front street in Hilo which was washed out a few weeks ago needs raising to grade and must be remacadamized. We made must be remacadamized. temporary repairs by building a culvert, which will answer the purpose for the time being. The road to the Volcano house, excepting about a mile at Olaa village, was washed out by the same storm. The legislature appropriated no money to keep that road in repair, and it is in fearful condition-The road could be repaired now at a ost of \$30,000 to \$50,000, but in a shor

time it will require double that amount. "We had a meeting in Olaa where the nomesteaders asked for road improvement in Puna. They need the road badly for the purpose of getting out their produce, and for hauling supplies from the railroad depot. I promised them that I would use every endeavor to get money set aside for that purpose. The cost of this improvement would be about \$6,000.

"The Volcano road is in a bad state and unless soon repaired will become impassable. The stretch of road built by J. H. Waipuilani is very good, but from the end of it going through Kaapulaa it is terrible for a stretch of ten miles. Before reaching Pahala planta-tion, for a distance of five miles the road is fairly good, and from there to Waiohinu the road is in very fine condition. From there to Col. Norris' ranch the road is in first class repair, and from there to the boundary of South Kona the road is as good as can be expected considering the material that can be had for the purpose is only a-a, and they have no roller for crushing the small stones.

"The road through South Kona district is good, and the North Kona roads are in fine condition to about ten miles from the Maguire ranch at Huehue, where a stretch of five miles needs macadamizing. From that point to the end of the North Kona district there is only a trail; a carriage road is badly needed, and would make the circuit of the island complete. Some of these trails are dangerous to life as well as

"We also investigated the public buildings in this district. The South Kona court house must be moved from its present location, because of the inense heat in the lock-up where it now is. Plans will be made for a new cour house and prison, and it will be built as soon as possible. The site of the North Kona court house must also be changed as confinement in the lock-up is unbearable because of the heat. The waterworks at Walohinu will be im proved and enlarged so as to accommodate all the residents of the village and give them a better water supply

"The wharves at all these places need replanking, piling and sheds. They are not protected by sheds at present. This is to be our last visit to Hawaii excepting at North and South Kona where soundings for the wharves must be made."

Superintendent Boyd stated that he improvements unless for such work as the legislature had already appropriat part, relying wholly upon the legislature, as was done by Hackfeld & Co assumes that the wireless telegraph will in the case of a new wharf, he would

## Slaughter Houses Are Now to Be Moved.

(From Thursday's daily.)

The Board of Health yesterday decided enforce the order made last year by former board for the removal of the slaughter houses in Iwilei. Though the meat companies located in that vicinity have already had eighteen months to comply with the order, no forcible action will be taken until after a special meetthe of the board Friday, to which the there is concerted action by the entire community.

C. B. COOPER.

The first order of removal was made April 25, 1999, and Executive Officer Pratt read from the minutes of that meeting, showing what action had been taken. "I have never seen anything so insani-tary and filth," said Dr. Moore, who had visited the place Tuesday. 'The slaughter houses are thoroughly infested with rats, and they are a constant men-ace to public health. I had no idea there Islands."

Pratt did not believe the place. could be placed in a sanitary condition, and the only thing to do was to enforce the order of removal. He stated that the Metropolitan Meat Company had already made plans which had been approved by metropolitan Meat Company had already they were taken in small boats to in passing mainland, where wagons had been protected by mainland, where wagons had been protected the board for a new building, out Kalihi vided for their accommodation. They was sorny he was to punishment more set jury heard the case: and upon his motion, definite action was postponed until Friday, when a special meeting will be sheld.

DISPENSARY MUST MOVE.

The dispensary is to be moved to a building on South street. The move is made not because the Board of Health wants to do so, but for the simple reason that two of the wagons broke down, and the jurymen were compelled to walk for the wants to do so, but for the simple reason that they have been their alleger part of the distance. wants to do so, but for the simple rea-son that they have no other alternative. The dispensary is at present ideated on the dispensary in the building ing officials were given an advance near the drillshed, and yesterday the Thanksgiving dispersion of the Honolulu Plantation Company. that the dispensary must be removed imInimediately as the conclusion of the ing man and saved his money mediately, as the shed was required for turkey feast the party bearded the reg. Dr. L. E. Cofer of the United States Ma-rine Hospital Service, whose labors and advice have been most valuable, beg to lenges the panel of Trial Jurors, re-report that after much labor, at last turned for this November Term of this tangible arrangements have been made for the protection of commerce by the united action and guarantee of funds by those most directly interested in shipping and also ways and means have been pro-vided for warfare on the rodents in the business and residence portions of the

By the short sightedness of the late legislature to provide for emergencies of this nature, only \$10,000 was allotted for the biennial period, to protect the inter-osis of these Islands, and that sum to be specifically used for fumigation.

As it cost in a recent epidemic \$500,-000, exclusive of fire claims, it can be easily seen that this department is more than hand capped to do good work, by such a paltry sum.

It is proposed to put the wharves in such a permanent condition as to render fumigation an easy matter and render our shipping interests safe and with a practically clean bill of health. It is proposed also to engage feew good men for work in the more thickly populated districts to distribute rat poison and in-struct in the placing of same, setting and care of traps and such other work as may arise in that line.
It is also hoped to procure a 12-horse

power engine with a sulphur fan, which can be placed on a truck, making it thus easy for transportation, to be used when

necessary for fumigation.
The Board of Health will furnish free rat poison to all applying for it, and every one able to purchase their own traps are expected to do so, and thus ald the Board in this crusade. Traps will be furnished to the indigent. It is use-less to expect favorable results unless

## COURT NOTES.

(Brom Thursday's daily.)

The jury in the case of the United States vs. the Bishop Estate spent yesterday afternoon in a careful examinawas such a nasty, dirty place on the tion of the land in dispute. The plan of making the trip in wagons was abandoned, and instead the jury took the 9:15 were driven and walked over every foot of the seven hundred acres condemned by the government. Some of the land had been freshly ploughed, and in other parts coral rocks impeded the way so that the journey was not the pleasantest is the world.

Safeguards the food against alum.

Alum baking powders are the greatest menacers to health of the present day.

ROYAL BAKING FOWDER CO., NEW YORK

Yesterday T. McCants Stewart, atorney for William Davis, made an attack on the bailiff law, claiming that if setit jurors drawn to hear the case. no further action looking to an appeal with has been taken, and nothing further lines.

Stewart, his attorney, and hereby chal- Mani channel. authority of law, and to the prejudice f defendant."

in the Rathburn matter, and the defendant was allowed exceptions. Mr. Stewart stated that he simply wished to Maui and Hawaii. He did not find as preserve the rights of his client in the much depth in some of the channels as ourt became necessary.

Davis is charged with having shot a binaman a few weeks ago. The evidence of the prosecution was to the ef-fect that the defendant, in company with everal other young men, were out horse-sack riding and became noisy and bois-erous. While passing a wagon in which was scated the Chinese, a pistol was discharged, and the occupant of the wagon received the bullet in his chest. The rosecuting witness stripped and exhiblied the wound to the jury yesterday.
The defendant makes no denial of the
fact that the Chinese was wounded, but
Davis alleges that he did not do the shooting. His father was on the stand and testified that the only gun which was owned by the boy had been in his possession at the time of the shooting. The gun was also is roduced in evidence, and the witness testified that he had tused it to shoot at a dog, then emptying fit of its contents. At the request of the Court, the gun was handed to Davis senior, who was told to discharge it, but the trigger obstinately refused to re-

spond. . The case went over until Friday morneing taken at 5 nt's case has not the arguments will adjournment o'clock. The defe-been concluded an-be presented Friday

TWO YEARS OR ASSAULT.

Jonah Davis was ound guilty yester-day of assault with a weapon, and was thereupon sentenced to a term of two years in the Oahu prison.

Arthur Aukai was the complaining witness, who was badly slashed with a

o'clock train yesterday morning, and arriving at Pearl Harbor, went immediately to Kuahua Island, where they made a careful investigation. From the Island they were taken in small boats to the mainland, where wagons had been the state of the passing sentence, remarked that be in passing sentence, remarked that he was sorny he was unable to make the punishment more severe. The brought in July, 1900. He was then brought was committed at Kallua, Kona, charged with conspiracy for persuadisland of Hawaii. The money order for ing the local Federation of Labor to The application of Kekai for permission of visit his daughter at Molokul was purchased in that town and the four raised to "fourty," while a cipher was added to the figure "4," making it was reported that the case against of not more than \$2,000 or imprisonment of the local Federation of Labor to order all labor organizations to go on strike unless they were paid in gold in silver. A general strike, accompanied by some violence, followed. the vendor of bad sausage was notle of not less than two years or more than This was at the time of the change in other indictment was returned against Iglesias was first called he was against R. M. Rainst, carpenter on the Roanoke, charged with disobedience of orders and assault upon the high seas. The second mate is the complainant in the case. The bond of the prisoner was his bail was first placed at \$2.000.

### Ottawa Mayor Disqualified.

OTTAWA, Ont., Nov. 16.-Mayor W. D. Morris pleaded guilty in the police court to a charge of buying liquor during pro-hibited hours. He was fined \$5 and \$2 costs, and told the court he accepted dis-qualification, which the conviction in-volved. He is no longer mayor of the capital, and is disqualified for two years.

## CABLE **BETWEEN ISLANDS**

The matter of inducement to be of fered to secure the building of a line s another question and one calling for serious consideration. I would not like to give an opinion at once. The branch line of cable would be a valuable feeder to the main line, as it would permit the people of the other islands, of all nationalities to make use of the cable directly to foreign countries. It would be of immense advantage to the sugar planters who would be able to secure eformation at once as to what was soing on all over the islands, news of accidents and all other matters of which specially quick information was desired. It would be of signal advan-tage but I believe its construction would was illegal, and challenging the panel of be entirely a matter for business calcuintion.

In the case of Wm. K. Rathburn | Curtis J. Lyons, the government wherein Attorney Robertson made a meteorologist, recalls the first sound-Curtis J. Lyons, the government similar attack on the grand jury panel, ings made between the various islands with the view of establishing cablwill be done before the termination of about 1886, these soundings were madthe trial, as it will be unnecessary in and the results indicated a good sea-Wednesday, November 27.

"Captain Jackson, a retired Britisi turned for this November Term of this naval officer, who was connected with court, denying the right of them and the local survey office," said Mr. Lyons each of them to try this defendant on yesterday, "made the soundings. They the following grounds, to wit: That were made purposely for the laying of said panel of jurors, and each of them inter-island cables. There was a comwas selected and summoned without pany formed which intended laying these cables, but the fact that there was to be no cable from the United Judge Gear promptly denied the mo- States to the Hawaiian Islands rather tion, stating that he based his decision damp ned the affair. There were exon the one given by Judge Humphreys tensive soundings made between Nilhau and Kauat, Kauat and Oahu, Oahy and Molokai, Molokal and Maul, and event that an appeal to the Supreme had been expected and there was not over 500 fathoms to Maul. He found 1.000 fathoms between Maul and Hawaii. It is therefore quite deep and there are strong currents necessitating a strong cable to resist them.

"Captain Jackson also made some holde of landing places. For Oahu he chose as a starting place Waialae Bay with a landing place on the west end of Molokul north of the present light house. He then favored starting from a place near Pukoo or Kamalo, Molokai, landing at west Maul. Starting again at a point near Nuu, Maul, he selected a landing place between Puakou and Kawaihae.

"There did not seem to be any sharp ridges in channels and generally there seemed to be a fairly level sea floor. Of course, if it was contemplated to lay a set of cables between the islands a very exhaustive study would necessarily have to be made. The surveys and soundings made by Captain Jackson are on file on tracings in the Government Survey office and many of his soundings appear on the present drographic maps of the United States Navy.

able between Molokai and Maui, but it was a cheap cable as it turned out and not the kind to resist the strong currents in that channel. It never amounted to anything and it was eventually carried away by the currents. That is the narrowest channe and a favorable place to experiment I do not see that there can be any spe cial obstacle to the laying of cables between the islands, if the community wants them. I am speaking from the geographical and marine aspects of the proposition. If it is found on further investigation that better floor way could be found outside the channels that would be the only change. The greatest difficulty would be found in the channel between Hawaii and Maui.

"As to the plans of the Mackay company in bringing their cable to the isl ands I do not see how they can improve on making Oahu the first and main landing place. By so doing they resentations to the company so as to would avoid risks by coming direct to insure a thorough consideration of the restoration of peace."

The Finance Minister declared that Oahu. In case of war it would be plan should be made. tions arising from this source would be at the minimum. To run it to Hawaii and then branch up to Oahu and thence on to the westward, would be to make the cable vulnerable.

Mr. James Gordon Spencer, secretary of the Chamber of Commerce, said: The connection of the islands by cable ters than to the merchants, though on many occasions the dealers find it necbe induced to make a connection of the into communication with the Mackay ompany and endeavor to impress upon he management the necessity of considering the laying of the branch line to bring in the other islands."

Mr. W. W. Harris, secretary of the Merchants' Association, said: "There would be great benefit from a cable be ween all the islands, both as a feeder the main line of the cable and as well as for the convenience of the residents and business men. The greatest advantage naturally would be to the planters as they would then be able to keep in close touch with every thing that is going on throughout the group. Merchants' Association will be in favor any steps which may be necessary o interest the company in the laying of a cable between the islands. There be a meeting of the Association Friday and if there is a full meeting it is probable that there will be a discuson of the proposition."

Senator Cecil Brown said: "I think he plan for building the cable by way of Hawaii, through the group to Kauai, would be a money-making one for the company. There would be a great amount of business collected for the main line of the cable in addition to tween the Dutch and the South African the inter-island business. The matter States, should be forgotten. The govern-should be taken up here and some rep-ment, therefore, will always remain on

### African Concentration Camps.

NEW YORK, Nov. 16.-According to the London correspondent of the Tribune, as a result of the publication of the elab-orate report issued by the Colonial Office in relation to the concentration camps in South Africa, Unionist papers pronounce the history of the camps as most creditould be a great advantage. It would able to England, while the pro-Boer jourof course be of more value to the plan-ters than to the merchants, though on closures is the unutterable criminality of

the policy of concentration.
It is admitted in the report that there essary to have quick communication is an indiscriminate massing together of with travellers or customers. If there people, of insufficient housing and covering any probability that the company is any probability that the company cring, absence of warmth and poor ra-which proposes to build the cable might tions. It is stated that the camp prisoners have been divided into two classes islands, the business people should get and that people whose relatives have been on commando have been put on half rations. But this policy has since been abandoned, it is said.

### King Christian Will Go South.

COPENHAGEN Nov. 16.-King Christian intends to leave Denmark for the coming winter, as he is unable to endure the severe climate which prevails in the kingdom during that season. He will leave here next week with the Dowager Empress of Russia to visit the Duke and Duchers of Cumberland at Gmunden, Austria. From there King Christian will probably go to Livadia, Greece.

#### HOLLAND WILL BE NEUTRAL. She Will Not Interfere in the Boes War.

...

THE HAGUE, Nov. 16.-The government, in the course of a communication to the Chamber dealing with the foreign office estimates, reiterated today its de-sire for the time being to maintain its policy of neutrality in connection with the South African question, and said: "But while we should scrupulously ob-serve the obligations of international law no one would suggest that the ties of consanguinity of race existing be

while he is hopeful the new tariff bill will greatly benefit the treasury and promote prosperity, it will not in any way resemble the protectionist measure about to be enacted by Germany.

#### AMERICANS NOT WANTED. German Steamship Lines Afraid Foreigners Will Secure Control.

NEW YORK, Nov. 16.-The Berlin cor respondent of the London Times and New York Times says it is reported in Bremen that the North German Lloyd Steamship Company, like the Hamburg-American line, intends to adopt precau-tions in order to prevent the concern from becoming Americanized. The or-ganization of the company is now such that it would be difficult for foreigners to obtain any authoritative voice in its management, but it is conceivable that a large number of shares might be concentrated in foreign hands

Vote on New Alabama Constitution.

BIRMINGHAM, Ala., Nov. 16 .- The official vote from all but six counties announced today placed the majority for the new constitution at 31,560. Five of the six counties missing will go against the constitution, but cannot bring the majority lower than 28,000.

Hereafter all the Toyo Kisen Kaisha steamers may be scheduled to ar-rive at this port in the morning.
